To Whom it may concern:

I have worked with Mark Nunlist for several years. He was the builder for our new 8400 square feet assisted living facility. We are pleased with our new building and have had very favorable comments from everyone who has visited our facility. The quality is very high and Mark was there during the project to make sure any last minute changes were completed in a timely and efficient manner.

Mark also built our personal residence which we are very pleased with.

I would not hesitate to recommend Mark Nunlist as contractor to anyone considering building a residential or commercial property.

Please feel free to contact me with any additional questions.

Respectfully,

Robert
